EXPERIENCE

Brain in a Vat Group - Founder

Brooklyn, NY | August 2024 - Present

Founded a music-promotion agency, systems and AI consultancy, and product studio, owning product strategy, architecture, and delivery through AI-assisted development and operation.

Music Promotion Services

- Run an agency that has delivered 250+ release campaigns for 70+ artist and label clients, including WhoMadeWho, Adriatique, Chloé Caillet, SIDEPIECE, Warner, and Sony's The Orchard.
- Design, build, and operate software infrastructure across client intake, campaign kickoff, curator research and targeting, pitching, placement tracking, reporting, client dashboards, invoicing, and payment reconciliation. Selected results include reducing kickoff from 30 to 2 minutes and pitch preparation from 12 to 2 hours.
- Integrate shared records, external APIs, custom applications and dashboards, and AI agents, with scheduled execution, output checks, human review, failure recovery, and controlled access and releases.

Product Studio

- Own the product requirements, architecture, and development of two consumer apps, both in beta.
- Dubs: iOS workspace for developing ideas through reading, listening, and spoken annotation. Built the Swift app, Postgres/Supabase library linking documents and annotations, and an MCP server giving agents permission-controlled access to that context.
- Writ: native Swift/macOS app that keeps microphones and speakers on the user's preferred devices. Built CoreAudio switching with separate input and output priorities, lid-aware microphone selection, and global shortcuts without Accessibility permission.

Systems & AI Consulting

- Translate discovery conversations into process maps, requirements and working prototypes, with scoped implementation plans.
- Design around how teams actually work, their existing tools, budgets, and technical constraints. Connect data, responsibilities, and follow-up into workflows people can run and maintain.
- Built prototypes for real-estate reporting and tour management, covering deal-data reconciliation, information collection, schedules and artist briefings.

INFAMOUS PR - Head of Music Promotion

Los Angeles, CA | December 2021 - August 2024

- Launched and led the Music Promotion division, developing its services, setting pricing, writing proposals, and winning and expanding client accounts. Clients included Four Tet, RÜFÜS DU SOL, BLOND:ISH, Ultra, All Day I Dream, and Dirtybird.
- Developed release strategies and campaign plans with artists, managers, and labels; managed client expectations and advised on campaign results.
- Directed colleagues and external partners, assigning work and managing campaign deadlines and quality.
- Built and maintained relationships with playlist curators, media, radio, and promotion partners to support artist and label campaigns.

EDUCATION

University of Southern California

Los Angeles, CA | May 2021

- B.A. in Philosophy, Politics, and Law, cum laude; minor in Music Industry.

TOOLS AND INTERESTS

Selected tools: Claude Code, Codex, Conductor, GitHub, Supabase, Cloudflare, Airtable, n8n, Google Workspace, Linear, Stripe.
Interests: raving, philosophy of mind, and Catan.
